## Description

This is a plot of land which consists of approx half urban and half rustic, and is located in a small hamlet of 4 other properties just 5 minutes from the large market town of Albox where you will find a wide variety of bars, shops, supermarkets and a brand new leisure centre.

The land is all on one single level and currently has a variety of almond and olive trees around the border; the plot has direct access from a tarmac roadway with water and electricity adjacent to the plot for easy connection.

Currently we are told that there is the possibility to construct a property of up to 160 square metres on part of the land giving any potential purchaser or investor a good opportunity to have a villa individually designed to your own specifications.

However we suggest to either appoint a solicitor to pre check the options prior to an offer or visit the local town hall yourselves and talk to one of the architects there. Most town halls now have an English speaking member of staff for you to deal with. Normally on urban land there are no issues to build but you cannot currently build anything on rustic land for habitation use.

There are very few urban plots available on the market so this is not to be missed. The good thing is you would be able to design your ideal home here in Spain that would meet your criteria and of which you can put your own personal stamp on.
