Description

SOLD APRIL 2024

This is an incredible, large plot of over 2 hectares with incredible views of the surrounding area, including mountains, countryside, the sea and nearby town of Aguilas thanks to its hilltop location. Additionally, to this, the land has a license to build a very large, detached property valued, in material costs, at nearly 405,000€, with full plans already drawn up and approved.

It is situated approximately 10 minutes from the popular coastal town of Aguilas, along with the numerous amenities on offer and this includes La Geoda de Pulpi, one of the largest crystal caves ever found and the largest accessible geode in the world.

The license for the property build consists of a very large, two-storey detached property that has been designed to work as a luxury B&B. In total the property consists of 6 bedrooms, all with en-suite bathrooms and terraces as well as ample parking for all guests and a wonderful private swimming pool with abundant terraced/patio area that makes the most of the incredible views. The total build comes in at over 400m², making a truly remarkable, large property that will certainly stand out.

The property has been designed to be environmentally friendly, with solar power electric only with large batteries to hold sufficient amounts of electric for when the sun isn't out.
